

LEISTRITZ EXTRUSION ACADEMY

➤ November 18 - 20, 2015

➤ Nuremberg, Germany

LEISTRITZ EXTRUSION ACADEMY

Refreshing Extrusion Technology

Operating an extrusion line at its optimum throughput and quality at best utilization is anything but easy. Only with a well-trained staff optimum results can be achieved. At the same time knowing the most recent technical developments can be the cutting edge in the competition race. Thus, training is an indispensable factor for success.

The training program

The Leistritz Extrusion Academy is a training program which allows for optimum interaction between theory and practical settings. In our well-equipped lab the theoretical content can be illustrated and tried out immediately - because practice makes perfect!

The target groups

Priorily responsible operating personnel, foremen and persons responsible for production.

The advantages are clear

- Extensive information on the most recent state-of-the-art in compounding technology
- Improvement of product quality due to increased basic knowledge
- Optimisation of production by adapting learned facts
- More efficient handling and operation of extrusion lines
- Motivating education and training of employees
- Cost reduction in terms of maintenance
- Discuss and exchange experience with experts

The training is conducted by experienced Leistritz employees and partners who have been dealing with operation, configuration and maintenance of extrusion lines for years. Thus a competent and practical training is guaranteed.

All topics are illustrated by practical lab demonstrations.

➤ Organisational Details

THE PROGRAM CONTAINS:

- 2 x accommodation incl. breakfast (Nov. 18th & 19th)
- Soft drinks & snacks during the training
- 3 x lunch
- Transfers Leistriz - hotel
- Training material including conference file

WEDNESDAY, NOVEMBER 18, 2015

08:45	Welcome coffee & snack at Ramada Nürnberg Parkhotel Registration	
09:00	Welcome address	
09:15	Safety training	theoretical
09:30	Extruder training (mechanics)	theoretical
11:00	Coffee break	
11:15	Extruder training (mechanics)	practical
12:30	Lunch	
14:00	Extruder control system (function and operation)	theoretical
15:00	Transfer to Leistritz lab	
15:15	Extruder mechanics and control system	practical
16:45	Transfer to hotel	
17:00	Summary Q & A day 1	

THURSDAY, NOVEMBER 19, 2015

08:30	Dosing systems (function and operation)	theoretical
09:45	Coffee break	
10:00	Pelletizing systems (underwater pelletizing)	theoretical
11:00	Pelletizing systems (strand pelletizing)	theoretical
12:00	Lunch	
13:30	Transfer to Leistritz lab	
13:45	Dosing and pelletizing systems	practical
15:15	Extrusion line (set-up and operation)	theoretical & practical
16:45	Transfer to hotel	
17:00	Summary Q & A day 2	

FRIDAY, NOVEMBER 20, 2015

08:30	Troubleshooting	theoretical
09:30	Active maintenance	theoretical
10:15	Coffee break	
10:30	Transfer to Leistritz lab	
10:45	Troubleshooting and active maintenance	practical
12:15	Transfer to hotel	
12:30	Summary Q & A day 3	
12:45	Lunch	
14:00	End of event	

The program may be subject to alterations.
