

**Press Release 01/2009****Changes in the Leistritz Management**

Dr.-Ing. Hubertus Schulte new CEO of Leistritz Extrusionstechnik GmbH

On January 1st, 2009 Dr.-Ing. Hubertus Schulte (47) was appointed CEO of the extruder builder Leistritz Extrusionstechnik GmbH. He is the successor of Dipl.-Ing. Günther Rduch, who will remain in the company as a consultant through November 30th, 2009. Dr. Schulte received his doctorate at the University of Paderborn in the field of „Mechanical Engineering for Plastics Machinery“ and has filled various positions in the world of plastics for many years. Now, the well-known extruder expert has taken over the management of the renown Nuremberg based company „with the excellent portfolio of ZSE MAXX extruders as the central piece of state-of-the-art extrusion lines and a highly motivated, competent team“, as he highlighted.
